RECEIVED

AUG 05 2002

OFFICE OF PETITIONS

Sir:

This communication is responsive to the Office Action dated February 1, 2002, concerning the above-referenced patent application. Applicants enclose with this paper a Petition for Extension of Time, plus payment, rendering the present response timely. Please amend the application as indicated below. In accordance with 37 C.F.R. § 1.121, the amended portions of the specification and claims are shown explicitly in the attached "Version with Markings to Show Changes Made."

In the Specification

On page 8, replace the 3 full paragraph spanning lines 15-21 with the one submitted herein.

Monoclonal antibodies of the invention can for example be prepared against the soluble form of the receptor. A hydrosoluble polypeptide corresponding to the soluble form of the INF-R is described on figure 2 of SEQ ID NO: 2. According to the present invention, a soluble form of the IFN-R
